Battery Type	1 x PP3	Meter ID	No
Battery Usage Time	20 Hrs	Weight	1.1 Kg

Main Description

### **C.Scope CS770XD**

**£124.95 + £8.50\*p&p**

The CS770XD is a perfect way to start metal detecting. The powerful non-motion circuitry is super sensitive to the faintest whispers denoting deep targets and is possibly the deepest metal detector under £130.00! Automatic discrimination circuitry with advanced two tone audio identification gives a high tone for 'good' targets and a low tone for rejected targets such as iron nails and foil. Being able to 'hear' rejected targets is a very useful feature as usually the more trash (iron nails etc) there is around the greater the chances of the goodies being there too! Now supplied with new 20cm (8") polo search head for added performance. The CS770XD is ideal for searching inland sites or adjust the control for equally great performance on the beach.

The C.Scope CS770XD is british built and carries a full 2 year manufacturers guarantee ensuring the peace

## Product Information - Metal Detector Zone

of mind you are buying a serious metal detector capable of many years service and not a gimmicky toy as is all too often seen in this price bracket. (And here's a little trade secret! The CS770XD is the same metal detector as the popular 'Bill Wyman Signature' metal detector. The only difference is that the CS770XD has the larger 8" polo search head making it deeper.)

***"The first thing you notice about the CS770XD is the depth, Wow! It is comparable with much higher priced detectors I have used!"***

Buy now and get our metaldetectorzone bundle worth over £25.00, totally free! Pack includes quality miniature headphones, tough draper trowel, scratch cover & C.Scope cap. Add to this C.Scope's build quality and 2 year guarantee and you cannot get a better start to the hobby of metal detecting.
